

## PRINCIPLES FOR SOLVING OUR EDUCATION CRISIS

As we begin 2019, Arizona's education system remains in crisis. There are still 1,700 teacher vacancies across the state, and nearly 1000 teachers have had to leave the classroom this year alone.

To finally solve this crisis, we need legislation that is aligned with the following principles:

### MORE THAN \$1 BILLION A YEAR IN NEW FUNDING

Adds more than \$1 billion per year into K-12 education, with additional resources to fund early education and higher education.

### SUSTAINABLE REVENUE

Includes a combination of revenue sources that will be sustainable over the long term.

### FAIR

Will make our education funding system more fair to low- and middle-income families.

### MEETS STUDENT NEEDS

Allocates money based on student needs in order to close the achievement gap.

### ACCOUNTABILITY

Provides transparency and oversight, without adding complicated new accountability systems.
